MPowered JV is a Joint Venture led by managing partner ESC Inc., with support from entity members EMW Inc. and Blue Glacier Management Group Inc. The venture was established to combine the strengths of a high-performing staffing and contracting firm with ESC's deep expertise and proven past performance in Information Technology and Cybersecurity. Founded by seasoned professionals with extensive experience in Government Professional Services, MPowered JV specializes in emerging technologies, including Artificial Intelligence (AI) / Super Intelligence (SI), automation, distributed ledger technology, edge computing, and immersive technologies. As an SBA-certified Woman-Owned Small Business (WOSB), MPowered JV is well-positioned to deliver innovative solutions across Federal Civilian, Department of Defense,Intelligence Community, and State, Local, and Education (SLED) sectors. We leverage a disciplined program management approach, aligned with ISO 9001:2015 standards, to ensure efficient, high-quality service delivery. This methodology consistently drives successful outcomes and delivers measurable cost for our clients.
